Why would I trust this?

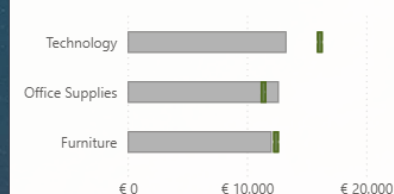

When did we sell the most and least products?

Most products sold in September, least products in February.

Which category reached the yearly target?

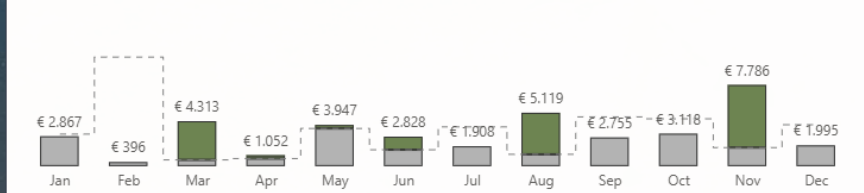

Category Office Supplies hit the sales target.

In which months did we hit our sales target?

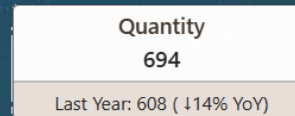

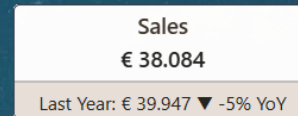

In the months April, August, June, March, May, November we hit our target.

● Below target ● Above target - - - Target

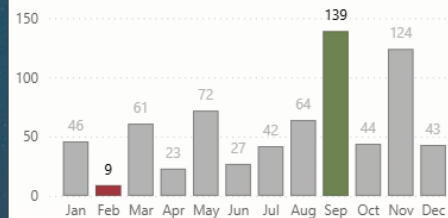

Why would I trust this?

(and where is my data?)

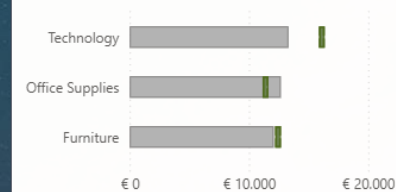

When did we sell the most and least products?

Most products sold in September, least products in February.

Which category reached the yearly target?

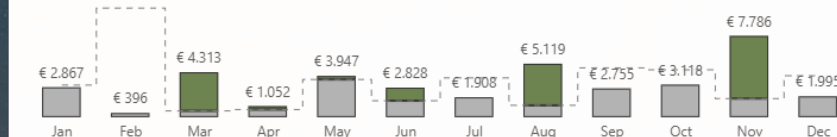

Category Office Supplies hit the sales target.

In which months did we hit our sales target?

In the months April, August, June, March, May, November we hit our target.

● Below target ● Above target - - - Target

Is the purpose to make it
look good or to create
insights?

The Audience

Who is the audience

Analyzing the problem

- They already only show core information.
- They want to see everything.
- They can't find **their** information.
- It needs to be **straightforward**.

Key problem: Can't find their information.

Solution: Guide them to their information.

➤ Small steps (highlighting subtotals, adding an empty row)

➤ Side by Side example

Takeaway

- Highlight what **matters**.
- Reduce clutter with layout and **formatting** tricks.
- Know when a table isn't the **right choice**.
